Safety and Maintenance

Safety Instructions
Please read this chapter carefully and observe all listed notes. This will ensure reliable operation and long life expectancy of your product.

Keep these instructions with your wireless Keyboard and mouse set at all times.

In the event that you transfer ownership of these devices, please provide these instructions to the new owner.

Operational Safety
- Whenever you edit data, it is advisable to make backup copies on an external data medium (disks, CD). We are not liable for any loss of data and consequential damages.
- This product is designed to run on a PC/AT (IBM-compatible) computer with USB port.
- Follow the safety instructions for the computer to which you are connecting the devices.
- Never open the component housing. This might lead to a short circuit or even a fire.
- Never allow children to use electronic devices unsupervised. Children may not always correctly identify potential hazards.
- Remove all power cables from your computer before installation. If the computer is not disconnected from the power outlet damage may result. Unless expressly instructed otherwise, only remove and change the connections in the powered down state.

Point of Use
- Position and operate these devices only on a stable, even and vibration-free surface.
- Keep devices away from moisture and avoid dust, heat and direct sunlight. Ensure an ambient temperature that is suitable for office equipment.
- The device has only been conceived for private use and not for operation in a heavy industry company.
- Use the device exclusively in living space or similar rooms.
Electro-Magnetic Compatibility

- Allow a clearance of at least 50 cm (19.7") from sources of high-frequency and magnetic interference (TV, mobile telephone, infrared devices, loudspeaker cabinets, etc), in order to avoid malfunctions and loss of data. The distance between the transmitter and the receiver should be greater than 50 cm (19.7”).
- When connecting additional or other components ensure that Guidelines for Electro-Magnetic Compatibility (EMC) are observed.

Information of Conformity

The company declares herewith that these devices are in agreement with the fundamental requirements and the other relevant terms of the 1999/5/EG Guideline. Complete declarations of conformity are available under www.medion.com/conformity.

C €0678

In this product laser devices of Laser Class 1 may be used according to DIN EN 60825-1. Repairs to the mouse must be performed only by the manufacturer. Do not look into the laser beam, even with specialist optical instruments.
Battery Treatment

Batteries may contain combustible materials. Misuse may cause battery leakage, heat, explosion or ignition, bringing about damage to the device or personal injury.

Please strictly observe the following:

- **KEEP CHILDREN AWAY** from batteries. If by any chance, the batteries are swallowed, consult a doctor immediately.
- **DO NOT CHARGE** batteries (except rechargeable batteries).
- **DO NOT FORCIBLY DISCHARGE** batteries.
- **DO NOT SHORT-CIRCUIT** batteries.
- Do not expose the batteries to high temperatures caused by sunshine, fire or the like!
- **DO NOT ATTEMPT TO DISASSEMBLE** or **DEFORM** batteries. This may lead to injury, or the liquid of the battery may get into your eyes or adhere to your skin. If this happens, rinse with a large quantity of water immediately and consult a doctor.
- **DO NOT** allow batteries to be exposed to heavy impact by dropping or throwing the batteries.
- **DO NOT reverse** the positive (+) and negative (-) terminals. This will help avoid short-circuits.
- **DO NOT MIX** used and new or different types of batteries together. Your equipment may not operate properly. In addition, the battery exhausted first may be excessively drained (over-discharged).
- **REMOVE PROMPTLY** the used batteries from the device.
- **REPLACE ALL BATTERIES** with new batteries of the same type at the same time.
- **INSULATE THE TERMINAL** parts with tape or the like at the time of storage or disposal of the batteries.
Maintenance

Cleaning
- Clean the devices and other components with a damp cloth. Do not use any solvents, corrosives or gaseous detergents.

Repairs
- This device should only be repaired by an authorised service centre. Please contact customer care if you have any technical problems.

Remove the power plug of your computer from the mains and contact customer care:
- if the connections are cut or otherwise damaged;
- if liquid has entered the device housing;
- if a device does not operate correctly;
- if a device is dropped or the housing damaged.

Recycling

Device 
At the end of its life, the appliance must not be disposed of in household rubbish. Enquire about the options for environmentally-friendly disposal.

Batteries
Do not dispose of used batteries in the household rubbish! They must be deposited at a collection point for used batteries.

Packaging
All packaging and packaging materials that are no longer required can and should be recycled.
What's in the Box?

Please check that the below mentioned parts and accessories are in the box. If any item is missing please contact your local service centre accordingly. Any claim for missing parts will only be accepted within 14 days from date of purchase. Included in delivery is the following:

- Wireless keyboard
- Wireless mouse
- USB receiver
- 3 alkaline batteries (LR6/AA, 1.5 V)
- Operating instructions

System Requirements

- Operating system: Windows® 7 / Vista® / XP
- Connections: 1 x USB port

Technical Data

- Radio mouse: 3 keys with control wheel
- Keyboard: with multi media keys
- Connections: 1 x USB connector
- Battery operated mouse: 1 x R6/LR6/AA, 1.5V batteries
- Battery operated keyboard: 2 x R6/LR6/AA, 1.5V batteries
Identifying Parts

1. Left mouse button
2. Right mouse button
3. Mouse wheel and button
4. On/Off switch mouse
5. Mouse battery compartment
6. Cordless USB receiver
7. Keyboard battery compartment
Fitting Batteries in the Keyboard

1. Turn the keyboard upside down.
2. Remove the battery compartment cover by pushing down on the cover and pulling it in the direction of the arrow.
3. Insert the batteries (2 batteries, type LR6/R6/AA, 1.5V) in the battery compartment of the keyboard. Ensure that the battery poles correspond to the “+” and “-” markings.
4. Slide the battery compartment cover back on until it locks into place.

Fitting Batteries in the Mouse

1. Turn the mouse upside down and remove the battery compartment cover by putting pressure on the recess and carefully pushing the cover upwards.
2. Insert the battery (1 x battery, type LR6/R6/AA, 1.5V) in the battery compartment of the mouse. Ensure that the battery poles correspond to the “+” and “-” markings.
3. Slide the battery compartment cover back on until it locks into place.

Connecting the Receiver

1. Please refer to the notes in the “Safety and Maintenance” section (page 2).
2. Switch the computer and all the attached peripherals on (monitor, printer, external modem, etc.).
3. Insert the wireless USB receiver plug in the corresponding USB socket of your PC.
4. Now position the keyboard and the mouse at your workplace so that they are comfortable to use.
Operating the Keyboard and Mouse

Mouse Wheel

1. To scroll, move the wheel.
2. To use the wheel as a button, click as shown in the graphic below.

The Keyboard

On the base of the keyboard are two folding feet that let you adjust the angle of the keyboard.
The Alt and Ctrl Keys

The left Alt key performs certain functions in conjunction with other keys. The application program determines these functions. In order to enter a combination of keys that include the Alt key, hold the Alt key down while pressing the other key. The right Alt key operates in a similar way but selects certain special characters. The Ctrl key, like the Alt key, carries out program functions.

Useful key combinations (software-dependent):

<table>
<thead>
<tr>
<th>Key Combination</th>
<th>Function and Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alt + F4</td>
<td>Ends the program selected or closes the window opened.</td>
</tr>
<tr>
<td>Alt + Print screen</td>
<td>Copies the image of the window currently active to the clipboard.</td>
</tr>
<tr>
<td>Shift + 2</td>
<td>Generates the @ character required for e-mails (pronounced: at).</td>
</tr>
<tr>
<td>Ctrl + Alt + Del</td>
<td>Windows security is launched.</td>
</tr>
</tbody>
</table>
Special Keys and Functions

These keys have a dedicated function as described in the table below.

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>🌐 Email – Opens your default email program.</td>
<td></td>
</tr>
<tr>
<td>🏡 Start page – Calls up a homepage provided by the manufacturer of your computer or an Internet site that you have specified.</td>
<td></td>
</tr>
<tr>
<td>⭐ Favourites – Displays your list of favourite web pages (see the help menu for your browser to set up your favourites).</td>
<td></td>
</tr>
<tr>
<td>🔍 Search – Activates the Search Function of the Operating System.</td>
<td></td>
</tr>
<tr>
<td>✖️ Cancel – Cancels the loading process in the browser.</td>
<td></td>
</tr>
<tr>
<td>⬅️ Back – Back to the last website/data display.</td>
<td></td>
</tr>
<tr>
<td>⏩ Forwards – Forwards to the next website/data display.</td>
<td></td>
</tr>
<tr>
<td>⌁ Update – Updates the content of the active Window.</td>
<td></td>
</tr>
<tr>
<td>🔞 Calculator – Opens the calculator integrated into the operating system.</td>
<td></td>
</tr>
<tr>
<td>🏡 Computer – Displays the contents of “My Computer”.</td>
<td></td>
</tr>
<tr>
<td>⏳ Stand By – Puts the computer into Stand By (settings in the BIOS or in the Operating System may be necessary for this. Also read the instructions for your computer)</td>
<td></td>
</tr>
<tr>
<td>⚡ Shut Down – Shuts the computer down (settings in the BIOS or in the Operating System may be necessary for this. Also read the instructions for your computer)</td>
<td></td>
</tr>
<tr>
<td>☀️ Wake the device up from Stand By – Wakes the computer up from Stand by (settings in the BIOS or in the Operating System may be necessary for this. Also read the instructions for your computer)</td>
<td></td>
</tr>
</tbody>
</table>
Symbol | Function
--- | ---
🎵 | Media Player – Opens Windows® Media Player
🔇 | Mute setting
➕ | Volume control – For setting the volume level.
⏮ | Previous – Use this button to spring back to the title or track played most recently.
⏭ | Next – Next title or track in the activated playback device.
▶/‖ | Playback / Pause – Starts the audio or video playback. Pressing the button a second time pauses playback. Press the button again to resume playback
⏹ | Stop – Stops the audio or video playback.

Notes on the Special Keys
Correct operation of the special keys is dependent upon a number of factors, particularly the operating system and configuration:

- Operating system / configuration
  The special keys call up certain functions of the operating system. Unfortunately, different versions of the Windows® operating system will produce different results. This is particularly noticeable in the media player and control keys.
  For example, the control keys only function in this way, in the case of some operating systems / configurations, if the Media Player has been started, but these keys will function when Media Player has not been started, in the case of other of operating systems / configurations.
  Please test this in the case of your system, because we are unable to give any universally applicable information in this context.
Customer Service

What to do in the Event of Malfunction

Malfunctions can sometimes have very trivial causes, but at times can also be of quite a complex nature and call for an in-depth analysis.

Basic Hints

- The regular running of the Windows® programs “Defrag” and “Scandisk” can remove sources of error and raise system performance.

Troubleshooting

- Have the batteries been inserted incorrectly or are they spent? Check the polarity (+/-) and exchange them for new ones as necessary.
- If you are working on a metal surface, use a screening base.
- If the media keys do not work, try starting the Media Playback first. This can be done by pressing the Media key.
- If the audio CD plays but nothing can be heard, this may be due to a number of causes:
  - The volume for CD playback may be set too low. Double-click the loudspeaker symbol in the taskbar to check the volume setting for CD audio.
  - If you have more than one CD or DVD drive try inserting CD into another CD drive.
  - The drive into which you have inserted the audio CD is not connected to the sound card (possibly the motherboard). Follow the instructions of your PC and check the connection.
- The Windows calculator cannot be started. The program may have been uninstalled. Reinstall the program.

Note

If you want to start a different calculator to the one supplied with Windows®, copy it into the Windows register and overwrite the calc.exe file found there.

- Instead of Internet Explorer, the Internet connection wizard is started. You must have a fully functional Internet connection before you can use this function.
-14-

- An Internet or e-mail program other than the one normally used is started. The key-
  board starts the programs that are defined as the “defaults”. Check under:

   Start  Control Panel  Internet Options  Programs

Technical Support

This product has been extensively and successfully tested in our laboratory with a number
of different devices. However, it is normal for the drivers to be updated periodically. If you
are having difficulty using your device, you may need to update the driver. Driver updates
and the most up-to-date information on this product can be found at the following Inter-
net address:

    Internet: www.medion.com

If you Need Further Assistance ……

If the suggestions in the above sections have not solved your problem, please contact us. It
will help us to help you if you can have the following information available:

- What is your computer configuration?
- What additional peripherals are you using?
- What messages are appearing on the screen?
- What software was running when the fault occurred?
- What steps have you already taken to solve the problem?
- If you already have a customer number from a previous call to us, please state this.
