DEAR CUSTOMER

We have prepared these operating instructions so you can familiarise yourself with your new product as quickly and comprehensively as possible.

- Please read these operating instructions carefully before putting the device into operation.
- Please read carefully the safety precautions. These are intended to prevent accidents and to protect the device from damage.
- Keep the operating instructions in a safe place; they may be helpful to you in the future if required.
SAFETY INSTRUCTIONS

- Children cannot always correctly recognise possible dangers caused by incorrect use of electrical equipment.
- Do not use the device near bathtubs and showers or above sinks or containers filled with water! Never use the massager with wet hands.
- Regularly check whether the mains cable is in good condition. Never use an electrical device when the cable is damaged, the device has fallen on the floor or is damaged.
- Do not use the device continuously for more than 20 minutes.
- Never open the casing; let a qualified service centre make any repairs.
- Check the temperature of the massaging surface with your fingertips in order to avoid burning.
- Do not use the device with an extension cord and make sure you stand on a dry surface.
- Prior to cleaning unplug the mains plug from the outlet.
- Please provide the operating instructions to other people who use this product to help them to familiarise themselves with this device.

MASSAGING WITH THE DIFFERENT ATTACHMENTS SUPPLIED

**STUD APPLICATOR**
For intense massaging of sore muscles and stiff shoulders.

**VACUUM APPLICATOR**
For massaging of hips, bottom and thighs. Helps to improve skin tone.

**POINTED APPLICATOR**
For intense massaging of specific spots. Relaxes sore muscles and gives a feeling of well-being after physical exertion.

**DOUBLE-POINTED APPLICATOR**
For intense massaging of the neck and back.

**BRUSH APPLICATOR**
For massaging of the scalp. Creates a very pleasant stimulation and stimulates the blood circulation.
USE & SWITCH POSITIONS

Connect the device to the mains AC 230 V ~ 50 Hz.

Switch on the device with the 4-position selector switch and select the desired massaging mode:

- **M + H**: Massage + Heat
- **H**: Basic heat massaging without vibrations
- **M**: Vibrating massaging with the attachments supplied
- **OFF**: Switch off the device

---

MASSAGING WITHOUT THE ATTACHMENT

**Basic use**
Thanks to the rotating massaging head and the handy hinge at the handle of your hand-held massager, you can easily reach every part of your body.

**Basic heat massaging without vibrations**
The basic heat massaging has a pleasant and relaxing effect.

**Vibrating and heat massaging**
The vibrating and heat massaging has a stimulating and pleasantly relaxing effect.

---

**ATTENTION!**
Do not use this device in case of swellings, irritations or burns.
Should you receive medical treatment for skin problems, please ask your doctor before use.
We are not legally liable for damage in case of incorrect use.
MAINTENANCE AND CARE

• Prior to cleaning, unplug the mains plug from the outlet.
• For cleaning, always use a moistened, soft cloth.
• Never immerse the device in water.
