Making Copies of This Manual .......... 41
We recommend that you read this chapter completely and with care and follow the instructions detailed. In doing this, the correct functioning and the long duration of the MP3 Player are ensured. Please keep these instructions somewhere safe in order to be able to hand them to a new owner in any eventual case of sale. In case of any problems, address exclusively to your local authorised service centre.

**DATA SECURITY**

You must guard against the loss of your important data by making backup copies. You can backup your data onto CDR, CDRW, floppy disk, USB memory drive or other media such as ZIP drives. It depends upon how much data you want to backup. If you do this and something happens to the hard drive in your computer, you have another copy of your data. We do not assume liability for any data loss or damage to data storage units, and no claims can be accepted for damages resulting from the loss of data or any consequential losses.
SAFE USAGE GUIDELINES

- Keep the product away from damp, protect it from jolts, dust and heat and do not expose it to direct sunlight, in order to avoid any operational problems.
- Do not open the product casing: this would void the guarantee and may damage or destroy the product.
- Do not allow children to play with electrical products without the supervision of an adult: children are not able to evaluate any possible and real dangers.
- After transportation of the product, wait until there is a suitable environmental temperature before putting it into operation. In case of significant thermal variations or damp, it is possible that the forming of condensation can occur which can cause short circuits. Before transportation, replace the cover of the USB socket.
- The product supplied is intended to be used only with computers equipped with power surge protection. (Limited Power Source according to EN60950).
ELECTROMAGNETIC COMPATIBILITY

- When you use the product, follow the directives on electromagnetic compatibility (EMV). To avoid the risk of damage and the loss of onboard data, position the device at least one metre from high frequency and magnetic sources of interference (TV, stereo loudspeakers, mobile phones, etc.)

CLEANING

Generally, the equipment does not need to be cleaned.

- Caution! The product does not contain components that need to be maintained or cleaned.

Be careful that the product does not get dirty. Do not use any solvents or spray corrosive cleansers. If absolutely necessary, clean the product casing with a damp cloth.
BATTERY HANDLING

Batteries may contain combustible materials. Misusing them may cause battery leakage, heat, explosion or ignition, bringing about injury or damage to the product or YOU. Please observe strictly the following:

- KEEP CHILDREN AWAY from batteries.
- If by any chance, batteries are swallowed, consult a medical doctor immediately.
- DO NOT CHARGE batteries (except rechargeable batteries).
- DO NOT FORCIBLY DISCHARGE batteries.
- DO NOT SHORT-CIRCUIT batteries.
- DO NOT HEAT or DISPOSE OF IN FIRE.
- DO NOT DISASSEMBLE or DEFORM batteries. Your hands and fingers may be injured, or the liquid of the battery may get into your eyes or adhere to your skin. If this happens, rinse with a large quantity of water immediately and consult a medical doctor.
DO NOT expose batteries to strong impacts by dropping or throwing the batteries.

DO NOT reverse the positive (+) and negative (−) terminals to avoid short-circuit.

REMOVE PROMPTLY any used battery from the device.

REPLACE THE BATTERY with a new battery of the same type.

INSULATE THE TERMINAL parts with tape or the like when storing or at disposal of the batteries.

DO NOT throw drained batteries in with the domestic rubbish! Respect the environment and dispose of them in the specific containers for separate collection. If necessary, return to your reseller or to our service centre. Thank you!
LEGAL CAUTION:
The MP3 Player can only be used to copy or encode music tracks of which the user owns the copyright(s) or for which he has purchased or has been given the right of use from the holder of the copyright. Any user who violates these rights is prosecutable according to the laws and/or subject to claims from the holder of the rights.

FILE FORMATS
This MP3 Player supports the following file formats:

<table>
<thead>
<tr>
<th>Mode</th>
<th>Format</th>
</tr>
</thead>
<tbody>
<tr>
<td>Playback</td>
<td>-MP3</td>
</tr>
<tr>
<td></td>
<td>-WMA (Windows Media Audio)*</td>

<td>-WAV (in connection with the &quot;Digital Voice Recorder&quot;)</td>
</tr>
<tr>
<td>Record</td>
<td>- Digital Voice Recorder: WAV</td>
</tr>
</tbody>
</table>

* WMA files can be played with Windows® Media Player Version 7.0 or higher.
WMA FILE FORMAT AND DIGITAL RIGHTS MANAGEMENT (DRM)

Your new USB MP3 Player can not only playback MP3 files but also files that are converted by Windows® Media Player into WMA file format. Please note that some WMA encoder programs could use DRM (Digital Rights Management) software. This DRM software is meant to stop unlicensed, unauthorised encoding and copying of music files.

Please use Windows® Media Player version 7.0 (or above) for converting your audio files into WMA files and copying these WMA files to your portable device.

WMA files that are converted with Windows® Media Player version 7.0 (or above) can be played back on portable devices.

Note: DRM means that the converted music / audio file will get attached a special DRM license file that would stop playing back these files on portable devices in case there would not be any license fee paid or license agreement would be in place.
These files have to be converted by Windows® Media Player 10.0 version or other software that converts MP3 files that would allow to do this.

You can transfer / copy the converted WMA file on to your portable device but unless the license fill is transferred the portable device would stop the playback of the audio file you would like to listen to.

For further information please refer also do:
**WHAT’S IN THE BOX?**

Please check the below listed parts and accessories are in the box when you first unpack your product. In the case of any missing item(s) please contact your local service centre accordingly. Any claim for missing parts will only be accepted within 7 days from date of purchase. Included in your product box is the following:

- MP3 Player with Stereo Earphones
- Driver CD-ROM for Windows® 98SE
- 1 Battery - type AAA
- Warranty card, This user manual

* The jog dial does not support **press & slide** at the same time. Otherwise, the jog dial may be locked/stuck in the housing.
GETTING STARTED

INSERTING BATTERY
This product is operated using a single 1.5V ‘AAA’ type battery. Open the battery compartment (9) by sliding the small cover on the back of the MP3 Player. Insert the battery (observe the + / - polarity!) Close the battery compartment. It is recommended to use alkaline batteries. NiMH batteries or batteries of higher capacity are also suitable.

Please observe the safety advice on batteries (page 4).

BATTERY STATUS
The battery status is shown on the display. Please replace the battery with a new one when the LCD screen shows: Low Battery

Note: Remove the battery to avoid possible damage caused by electrical leakage when not using the Player for extended periods of times.
RESETTING THE MP3 PLAYER
If your MP3 Player does not respond properly (e.g. because of incorrect input, error in the data transmission, static discharge) proceed as follows:
1. Disconnect all connection cables
2. Remove the battery and insert it again.
3. Turn on your MP3 Player.

CONNECTING THE EARPHONES
Stereo earphones are included.
Insert the earphone plug into the appropriate socket [2] of your MP3 Player.

Caution: Listening to music at a very high volume can cause permanent damage to your hearing. Before starting playback, adjust the volume to the lowest level, then start the playback and adjust the volume to the desired level.
**COMMANDS**

**TURNING ON/OFF THE MP3 PLAYER**

To start the MP3 Player, press and hold for at least three seconds, the Power On key [7]. The LCD screen will display.

Now the device is in the playback mode. The MP3 Player turns off automatically after some time when not in use in order to save the battery. (This does not happen in the playback mode and in the pause function.)

To turn off the MP3 Player, hold down / press the Power Off key [7] for three seconds.

**VOLUME ADJUSTMENT**

To adjust the volume press the appropriate buttons [6 = Vol - / 4 = Vol +]. The display will show the recent adjustment.
**PLAYBACK / PAUSE / STOP**
After turning on the MP3 Player, press briefly the button [7] to playback a track. To pause the playback, press the button [7] again briefly. To start the playback again, press the button [7] again. For instructions regarding transferring / loading music tracks onto the MP3 Player, read from page 31 onwards.

**TRACK SELECTION**
Jog *briefly* the menu key [1] rightward or leftward, to playback the previous or the following track. By keeping the jog hold, the tracks scroll backwards and forwards while the playback is muted.
**Menu Settings**

**Viewing the Menu**

When the MP3 player is powered on, press and hold the "MENU" key for 3 seconds to enter the main menu:

![Symbolic picture of menu options]

If no selection is made within 5 seconds of a button press the main menu will disappear automatically.
Menu Hierarchy

Commands
**MUSIC MODE PLAY**

Music mode is the default mode of the MP3 player. When the MP3 player is under Music mode "Play" status, press the "MENU" key to enter the menu:

- **REPEAT**

When the MP3 player is under Music mode "Play" status, press the "MENU" key to enter the main menu. Jog the "Menu" key to select "Repeat" and press the "Menu" key to enter.

- **Normal**
- **Rep All**

---

**COMMANDS**
• **Normal:** The MP3 player will play from the first song to the last song in normal order and stop after all songs finish. When there is (are) sub-folder(s), the MP3 player will play the songs in the root folder first, then the songs in sub-folders.

• **Repeat One:** The MP3 player will continuously play the current song till manually stopped.

• **Folder:** The MP3 player will play all the songs in current folder in a normal order and stop when all songs finish.

• **Repeat Folder:** The MP3 player will continuously play all the songs in the current folder till manually stopped.

• **Repeat All:** The MP3 player will continuously play all the songs stored in the built-in memory till manually stopped.

• **Random:** The MP3 player will play all the songs stored in the built-in memory in a random order.

• **Intro:** The MP3 player will play the first 10 seconds of each song and skip to the next one till all songs finish.
EQUALIZER
When the MP3 player is under Music mode "Play" status, press the "MENU" key to enter the main menu. Jog the "Menu" key to select "Equalizer" and press the "Menu" key to enter. Jog the "Menu" key to select NATURAL / ROCK / POP / CLASSIC / SOFT / JAZZ / DBB, once a certain mode is selected, the corresponding symbol will appear on the LCD screen accordingly.

REPLAY
When the MP3 player is under play status, press the "MENU" key to enter menu, jog the menu button to select "Replay" and press "Menu" button to confirm, the letter "A" flashes. Jog the "Menu" button to the right to select the "A" point. After point "A" is selected, letter "B" flashes, jog the "Menu" button again to the right to set point "B", an "A-B" sign shows on the screen and the content between point A and point B will be repeated continuously. Press the "MENU" key once more to exit the A-B replay mode.
**MUSIC MODE STOP**
When the MP3 player is under "Music" mode "Stop" status, press the "MENU" key to enter the main menu:

- Local folder
- Delete file
- Delete all
- Exit

**LOCAL FOLDER**
When the MP3 player is under "STOP" status, press the "MENU" key to enter the menu. Jog the "Menu" key to select "Local folder" and press the "Menu" key to enter. Jog the "Menu" key to select the root folder or sub-folder, press the "Menu" key to confirm. The songs in the selected folder will be played.
DELETE FILE
When the MP3 player is under "STOP" status, press the "MENU" key to enter the menu. Jog the "Menu" key to select "Delete file" and press the "Menu" key to enter.

Jog the "Menu" key to select "Yes" or "No" and press the "Menu" key to confirm. When "No" is selected, the MP3 player will return to "Music" mode, when "Yes" is selected, the current song will be deleted.

DELETE ALL
When the MP3 player is under "STOP" status, press the "MENU" key to enter the menu. Jog the "Menu" key to select "Delete All" and press the "Menu" key to enter.

Jog the "Menu" key to select "Yes" or "No" and press the "Menu" key to confirm. When "No" is selected, the MP3 player will return to "Music" mode, when "Yes" is selected, all songs in the current folder will be deleted.
**RECORD MODE**

Press and hold the "MENU" key to enter the main menu. Jog the "Menu" key to select "RE" and press the "Menu" key to enter.

1. Start recording/Pause/Stop
2. Press the key to start recording;
3. Press the key again shortly to pause recording, the current recording time will flash;
4. Press and hold the key to stop recording, LCD shows "Saving", recorded voice file is saved.
**RECORD MODE STOP**
When under "Stop" status, press the "Menu" key to enter the menu:

- Local folder
- REC type
  - FINE REC
  - LONG REC
- Exit

**LOCAL FOLDER**
Jog the "Menu" key to select "Local folder" and press the "Menu" key to enter. Select the root folder or sub-folder, press the "Menu" key to confirm, the recorded file will be saved in the folder selected.

**REC TYPE**
Jog the "Menu" key to select "REC type" and press the "Menu" key to enter.
FINE REC: Better quality, less recording time;
LONG REC: Longer recording time.
**VOICE MODE PLAY**

Press and hold the "MENU" key to enter the main menu. Jog the "Menu" key to select "Voice" and press the "Menu" key to enter.

**Play a voice file**

1. Press the key to start playing.
2. Press the key again to stop.

When the MP3 player is under "RP" mode "Play" status, press the "MENU" key to enter the menu:

- **Repeat**
  
  Please refer to page 25.

- **Replay**
  
  Please refer to page 20.
VOICE MODE STOP

Local folder

Delete file

Delete all

Exit

LOCAL FOLDER
Please refer to page 21.

DELETE FILE
Please refer to page 22.

DELETE ALL
Please refer to page 22.
**SETTING MODE**
Press and hold the "Menu" key to enter main menu, jog the "Menu" key to select "Setting" mode, press the "Menu" key to enter.

**RECORD TIME**
Select "Record time" and press the "Menu" key to confirm. Press Vol+ or Vol- button, the number of Year/month/Day/Hour/Minute/Second starts flashing, adjust the number by jogging the "Menu" key. Press the "Menu" key to confirm after finish.

**BACKLIGHT**
Select "Backlight" and press the "Menu" key to confirm. Jog the "Menu" key to select from 0 second-30 seconds and press the "Menu" key to confirm. For example, when "15" is selected, that means the backlight will automatically go off after 15 seconds any keys are pressed.
POWER OFF
Select “Power off” and press the “Menu” key to confirm.
Jog the “Menu” key to select “off time” or “Sleep time” and press the “Menu” key to confirm.
- Off time: User can select from 0 second – 60 seconds. For example, when “30” is selected, that means the MP3 player will be auto off if there is no more operations after 30 seconds STOP status.
- Sleep time: User can select from 0 minute – 120 minutes. For example, when “30” is selected, that means the MP3 player will be auto off 30 minutes after the “sleep time” is set.

CONTRAST
Select “Contrast” and press the “Menu” key to confirm.
Jog the “Menu” key to select from level 1 to level 16, press the “Menu” key to confirm after a desired contrast ratio is selected.
ONLINE MODE
Select "Online mode" and press the "Menu" key to confirm.
Jog the "Menu" key to select from Normal only/Encrypt only/Multi drive, press the "Menu" key to confirm

• Normal only: Under this mode, only the non-encrypted part of the flash disk can be detected when connect the MP3 player to PC.
• Encrypt only: Under this mode, only the encrypted part of the flash disk can be detected when connect the MP3 player to PC, input the correct user name and password to see the files saved on the encrypted part of the flash disk.
• Multi drive: Under this mode, you can connect 2 or more MP3 players to your PC together, once a file is copied to one of the MP3 player, it will be copied to other MP3 players at the same time.
MEMORY INFO
Select “Memory info” and press the “Menu” key to confirm.
Memory information will be displayed on LCD screen.

FIRMWARE VERSION
Select “FW version” and press the “Menu” key to confirm.
Firmware version information will be displayed on LCD screen.

FIRMWARE UPGRADE
Select “Firmware upgrade” and press the “Menu” key to confirm.
Start firmware upgrading by connecting the MP3 player with PC and using the latest firmware provided by manufacturer or downloaded from the support website.
**Using with a Computer**

**Connection to the Computer**

1. Turn the USB plug in order to fit it into a free USB socket on your computer. Please use a USB cable extension (not included) if the plug doesn’t fit.
2. The LCD screen will indicate the MP3 player is successfully connected with PC.
3. The computer should now recognise that a new device/ peripheral has been connected.
Installation of the Driver

(ONLY Windows 98SE – Windows ME/2000/XP does not need any additional driver)

1. Insert the supplied CDROM until the installation screen appears.

   Note: If installation does not start automatically, probably the so-called, "Autorun" feature is deactivated. Activate this feature if required in your Device Manager by calling the entry "CD-ROM" and then marking the feature "Automatic notification on change".

Manual installation without Autorun feature:

1. Open the "Start" menu and select "Run".

2. Then enter the letter for the CD-ROM drive followed by a colon and the name of the program: "setup.exe"

3. Confirm by clicking "OK".
PC/MP3 Player File Exchange

When the MP3 player is connected to your PC it will be possible to copy your favourite tracks onto the MP3 Player or transfer other files to the MP3 Player and use it as portable data device. However, the MP3 Player only accepts / plays music files in MP3, WAV and WMA format.

1. Select (Click) in your Windows Explorer on the track you want to copy / transfer to the MP3 Player.
2. Drag the track to the MP3 Player that has been recognised as a drive and let it drop. ('Drag & Drop')

File Conversion

Your MP3 Player offers two different recording types:
- FINE REC: better quality, less recording time, *.wav format
- LONG REC: longer recording time, *.act format

If you choose the LONG REC mode, the recorded file will be saved in a format that is not recognized by a Windows operating system.
Anyway, you can convert your files into *.wav format by using the tool "Sound Convert Tool 2.0".

This "add on" will be installed with your MP3 Player Utilities 1.45 and can be found in the folder:

**Start/Programs/MP3 Player Utilities 1.45**
MEMORY DRIVE FUNCTION
It is also possible to use your MP3-Player as a Memory Drive. Simply copy the desired files onto the MP3 Player. Take into account that the MP3 Player only shows files with the extension *.wav, *.mp3 or *.wma.

ADVANCED FEATURES

LYRICS SYNCHRONIZATION
This MP3 player supports lyrics synchronization. For every MP3 or WMA song saved in this MP3 player, if saved together with an *.lrc file with same file name, then the lyric text will be displayed on the LCD screen when the MP3 or WMA song is being played.

*Lrc file: It is text file with time code. It can be created by lyrics edit software or can be downloaded from Internet.

9 SUB FOLDERS
This MP3 player can support maximum 9 sub-folders. Now you can categorize your favourite songs in your MP3 player.

Note: Maximum 99 files are allowed to save in one sub-folder.
CUSTOMER SERVICE

SOLUTIONS FOR COMMON PROBLEMS

The computer does not recognise the MP3 Player:

- Check the installation (page 31 and following. Windows 98 SE: is the driver installed?)
- Is a fresh battery inserted?
- Check the cable connections.
- Is the MP3 Player turned on?
- In Windows Control Panel, check if the MP3 Player is installed correctly. Try installing the USB controller again. Remove any other USB peripherals as a test.
In the MP3 Player, the files are not shown correctly:

- The MP3 Player does not display the name of the file but its own coded information with an ID tag. This information can be modified with special programs (not included).

The MP3 Player does not execute the commands correctly:

- Is the battery loaded?
- Is the connection between USB and PC correct?
- Reset the MP3 Player (page 13)

The titles are not shown in the correct sequence:

- Check that the playback mode is set correctly (page 15)
- Is the USB to PC connection correct? Reset the MP3 Player (page 13)
IS FURTHER ASSISTANCE NECESSARY?
If the suggestions listed above are not enough to resolve the problem, then contact us. The following information will help us to help you resolve your problem:

- Configuration of the computer
- Any additional peripherals you may have connected
- Any messages that appear on the MP3 Player display
- Any Windows programs that were being used when the problem arose
- Solutions you have tried to resolve the problem.
- If you have a customer code, please have it ready before you call.
WARRANTY

PLEASE READ THIS LIMITED WARRANTY CAREFULLY TO UNDERSTAND YOUR RIGHTS AND OBLIGATIONS.

The sales receipt is considered valid proof of purchase and should be kept in a safe place. This receipt will be required for receiving any warranty service. This warranty is transferable. When transferring ownership to a third party, please provide the receipt and warranty information. Our company warrants to the end user that each product, including related software, accessories, media and supplies, shall be free from defects in materials and workmanship for thirty-six months from date of purchase. This warranty covers only those defects that arise as a result of normal use of the product. This warranty does not cover any other problems, including problems that arise as a result of improper maintenance or modification; software, accessories, media or supplies not provided or supported by the supplier; or operation outside the manufacturer’s specifications.
Any part of this device repaired or exchanged by a valid service representative will be covered under the original warranty period. Back up all programs and data before shipping this device for repair under the warranty agreement. Do not leave any media in the disk drives. Products shipped without accessories will be returned without accessories. Any replacement product or component may be either new or like new, provided that its functionality is at least equal to that of the product being replaced.

**LIMITATION OF WARRANTY**

To the extent allowed by local law, no other warranties are made with respect to this personal computer or the warranty services by any person, including but not limited to our company and its suppliers. The express warranty stated above is the only express warranty made to you and is provided in lieu of all other express or implied warranties and conditions (if any) including any created by any other documentation or packaging. For additional warranty information, please refer to the included warranty card.
LIMITS OF LIABILITY
To the extent allowed by local law, except for the obligations specifically set forth in this warranty statement, in no event shall the company or its third party suppliers be liable for direct, indirect, special, incidental, or consequential damage, whether based on contract or any other legal theory and whether advised of the possibility of such damages. This includes loss or damage of personal data on your computer.

LOCAL LAW
This warranty statement gives you legal rights. You may also have other rights that vary from jurisdiction to jurisdiction. To the extent this warranty statement is inconsistent with local law, certain disclaimers and limitations of this statement may not apply to the customer.

MAKING COPIES OF THIS MANUAL
This manual contains information protected by law. All rights are reserved. Copyright law prohibits duplicating this information in mechanical, electronic, or any other form, without the written approval of the manufacturer.
