- Do not use the device in the presence of water or moisture

### Cleaning and maintenance
- Clean the device with a soft cloth.
- Do not use any cleaning agents.
- Do not use any abrasive cleaning agents.
- Do not use any cleaning agents

### Warranty
- The device is covered by a warranty for 3 years from the date of purchase.
- In the event of a warranty claim, please contact our customer service.
- In the event of a warranty claim, please contact our customer service.
- In the event of a warranty claim, please contact our customer service.

### User Manual
- Thank you for choosing our product.
- We hope you will enjoy using our product.
- Read the safety instructions carefully before using the device for the first time.
- Always keep the operating instructions close at hand.
- In the unlikely event of such an event, please contact our customer service.
- In the unlikely event of such an event, please contact our customer service.
Storing the device when not in use

- Perform a complete charging cycle once a month. This prevents the battery from completely discharging, which may permanently damage it.
- Store the device in a dry, dust-free location out of direct sunlight if it will not be used for some time.

Troubleshooting

- If the device malfunctions, please check first whether you can fix the problem yourself with the help of the following overview.
- Never try to repair the device yourself. Contact our Service Centre if a repair is necessary.

Problem | Solution
--- | ---
The device does not work | Charge the speaker battery completely.
Make sure that the speaker is turned on.
Check the volume setting on the speaker and on your audio output device. Make sure that your audio output device is within range (max. 10 m).
Check your audio output device to see whether the device is shown as connected. Pair the device again if necessary.

No sound | Check whether your audio output device is connected, then make sure that your audio output device is within range (max. 10 m).

Speaker does not react | Reset the speaker.

Diagram

The device is equipped with one integrated rechargeable battery. At the end of its service life, do not dispose of the device with normal household waste. If you can no longer use your electrical device, dispose of it in accordance with the legal provisions applicable in your area. This involves separating the materials in the device for the purpose of recycling and minimising the environmental impact. Contact your local waste disposal company or your local authority for more information on this subject.

Disposal

PACKAGING

The product has been packaged to protect it from damage in transit. The packaging is made of materials that can be recycled in an environmentally friendly manner.
