1. About these instructions

Read the safety instructions carefully before use. Note the warnings on the device and in the operating instructions. Always keep the operating instructions close to hand. If you sell the device or give it away, make sure you also hand over these instructions and the guarantee card.

1.1. Warning symbols and key words used in these instructions

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>!</td>
<td>DANGER! Warning of immediate risk of fatal injury!</td>
</tr>
<tr>
<td></td>
<td>WARNING! Warning: possible mortal danger and/or serious irreversible injuries!</td>
</tr>
<tr>
<td></td>
<td>CAUTION! Warning: possible light or moderate injuries!</td>
</tr>
<tr>
<td>!</td>
<td>CAUTION! Please follow the guidelines to avoid property damage.</td>
</tr>
</tbody>
</table>
PLEASE NOTE!
Additional information on using the device!

PLEASE NOTE!
Please follow the guidelines in the operating instructions.

WARNING!
Warning: danger of electric shock!

- Bullet point/information on operating steps and results
- Tasks to be performed

2. Proper use

This device is designed to output audio signals via the 3.5 mm jack audio cable supplied in the delivery. Power is supplied to the device via the USB connection.

The product is intended for private use only and not for industrial or commercial use.

Please note that we shall not be liable in cases of improper use:

- Do not modify the product without our consent and do not use any auxiliary equipment which we have not approved or supplied.
- Use only spare parts and accessories which we have supplied or approved.
- Heed all the information in these operating instructions.
instructions, especially the safety information. Any other use is deemed improper and can cause personal injury or damage to the product.

- Do not use the product in extreme environmental conditions.

3. **Scope of delivery**

Please check your purchase to ensure all items are included and contact us within 14 days of purchase if the delivery is incomplete. With the loudspeakers that you have purchased you receive:

- 2 speakers
- USB power cable
- 3.5 mm stereo cable
- Operating instructions
- Warranty documentation

4. **System requirements**

Microsoft Windows® 8, Windows® 7 SP1, Windows® Vista SP2, Windows® XP SP3

USB interface

Notebook or PC with stereo line-out
5. Safety and maintenance

5.1. Operational safety

• Never open the housing of the loudspeaker! Parts requiring maintenance are not included.
• This device is not intended for use by people (including children) with reduced physical, sensory or mental abilities or for those without experience and/or knowledge, unless they are supervised by a person responsible for their safety or they have been instructed in its use. Children should be supervised to ensure they do not play with this device.
• Keep packaging material out of reach of babies and children. There is a risk of asphyxiation.
• The loudspeaker is not intended for use in heavy industry companies.

5.2. Electricity supply

• Power is supplied to the device via the USB cable supplied in the delivery. Position all cables so that they cannot be
stepped on or tripped over.

- To disconnect the power supply from your device, pull the USB plug out of the PC. Always pull on the USB plug itself when removing it from the PC. Never pull on the cable.
- Stop using the device if the housing or cable is damaged. Please contact the service centre if this is the case.
- Do not place containers containing liquid, e.g. vases, on or near to the device, and protect all the parts from drips or splashes. The container may tip over and the liquid may impair the electrical safety of the device.

5.3. Installation location

- In the first few hours of use new devices can give off a typical, unavoidable but totally harmless smell, which wears off with time. To help reduce the amount of odour build-up, we recommend that you ventilate the room at regular intervals. We have taken appropriate measures during the development of this device so that
levels are explicitly below legislative limits.

- Do not place any objects on the cable to avoid damaging it.
- Keep the device and any other devices connected to it away from moisture. Avoid dust, heat and direct sunlight in order to prevent malfunction.
- Place and operate all the components on a stable, level and vibration-free surface in order to prevent the loudspeaker from falling down.
- Maintain a minimum distance of approx. 5cm between the device and any walls. Ensure that ventilation is adequate.
- Modern furniture is coated with a wide range of varnishes and plastics, and treated with very different care products. Therefore, it is not possible to entirely exclude the possibility that some of these substances contain components that could corrode and soften the device’s rubber feet. Place a non-skid mat underneath the device as necessary.
- Do not place any naked flames (e.g. candles) on the device.
• Only use the device in residential rooms or similar rooms.

5.4. Electromagnetic compatibility

• Keep a distance of at least one metre from high frequencies and magnetic sources of interference (television, other loudspeaker boxes, mobile or cordless telephones etc.) to avoid malfunctions.

• Do not use any accessories other than those supplied.

5.5. Repairs

Please contact our service centre if you have technical problems with your device. Repairs should only be performed by our authorised service partners.

Please contact our customer service if:

− liquid has seeped inside the device.
− the loudspeaker is not working properly.
− The device has been dropped or the housing is damaged.
6. Description of the device

6.1. Connections & control elements

![Diagram showing connections and control elements of the device.]

- Connection cable for speakers
- On/Off volume control button
- 3.5 mm jack plug
- USB plug
7. Operation

7.1. Connect to an audio signal
Connect the 3.5 mm stereo audio output jack of your audio output device using the 3.5 mm cable to the input AUDIO IN on the left loudspeaker.

7.2. Connecting to a power supply
- Switch on the computer and all peripheral devices.
- Insert the DC plug of the USB cable into the DC IN connection socket on the rear of the loudspeaker that has the connection sockets.
- Insert the USB plug into a free USB port on your computer.
- Turn the volume control button on the loudspeaker to switch on the loudspeaker. The bottom of the loudspeaker will light up.

7.3. Setting the volume
- Turn the volume control on the loudspeaker to adjust the volume to the level required. Turning to the right “+” increases the volume; turning to the left “−” decreases the volume.
8. Customer service

8.1. What to do in case of malfunctions

- Start by carefully checking all the cable connections. If the display lights are not working, check to make sure that the loudspeaker is connected to an adequate power source.

No sound/distorted or poor quality sound
- Adjust the volume control until you find a comfortable level.
- Check the connections.

8.2. Do you need more help?

If the above suggestions did not solve your problem please contact us. The following information would help us:

- Which operating system do you use?
- What signs/messages can you see?
- What steps have you already taken to try and rectify the problem?
- Please provide your customer number if you have one.
8.3. Cleaning
Wipe the loudspeaker down with a slightly moistened cloth. Do not use solvents, corrosive or aerosol detergent to clean the device.

8.4. Waste disposal

Device
At the end of its service life, the device should not be disposed of with the household rubbish. Please enquire about the options for environmentally friendly disposal.

Packaging
Your device has been packaged to protect it from damage in transit. The packaging is made of environmentally friendly material which can be recycled.

9. Technical data
Connection 3.5 mm stereo line in jack
Output 2 x 0.8 watts (RMS) via USB
Electricity supply via USB cable 5 V
10. CE Declaration of Conformity

Medion AG hereby declares that these USB loudspeakers conform to the fundamental requirements and the remaining relevant regulations of the 1999/5/EC Directive. Full declarations of conformity are available at http://www.medion.com/conformity.
