Getting started

Installing the battery

1. With your phone back upward, apply gentle pressure to the rear case of the phone, slide up the cover until the position mark on the right side aligned with the one on the phone body. Then take off the cover.

2. With the metal contacts facing into the phone clip the battery in place, positioning the bottom of the battery first.
3. Place the rear cover with the position mark aligning with the one on your phone body. Replace the rear cover, by sliding it back onto the phone until it clips in place.
Installing a memory card and the SIM card

<table>
<thead>
<tr>
<th>Warning:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Do not bend or scratch your memory card or SIM card.</td>
</tr>
<tr>
<td>Avoid exposing your memory card and SIM card to static electricity, water or dirt.</td>
</tr>
<tr>
<td>As the memory card fits beneath the SIM card, please ensure that the memory card is fitted first.</td>
</tr>
</tbody>
</table>

1. With your phone back upward, apply gentle pressure to the rear case of the phone, slide up the cover until the position mark on the right side aligned with the one on the phone body. Then take off the cover. Slide the memory card into the memory card holder with the metal contacts facing down into the phone body.
2. Slide the SIM card into the SIM card holder with the metal contacts facing down.
Charging the battery

**Warning:**
To avoid damaging the phone, please do not remove the battery when the phone is charging.
To ensure the best performance of your phone’s battery, please charge the battery fully before using it for the first time (Approx. 12 hours), using the method described below. Please note: some batteries require several full charge/discharge cycles to reach their best performance.

1. Make sure the battery has been installed properly before charging.
2. Open the protective USB cover and plug the travel charger into the USB connector.
3. Plug the other end of the travel charger into the electrical outlet.
**Tips:**
It may take a few seconds for your phone to display a visible charging indication if your phone is switched off.
Your phone can be used while charging.
It may take a few minutes for your phone to display a visible charging indication if the battery is fully discharged.
The phone will be charged from your PC when it is connected with the USB cable, however it will take a longer time to charge than when charging with the travel charger.

**Turning your phone on/off**

**Power on**

**Tip:**
When switched on, your phone is busy searching the network. Some functions may NOT work properly in the first few seconds.

1. Press and hold the **Power key** for 2 seconds to turn your phone on. Your phone will display the power on animation and enter standby mode.
2. If necessary, enter your SIM card PIN code (displayed as ****) to unlock the SIM card.
3. Please refer to Other settings>Security setting>PIN code in the user manual to get more information on the PIN code.

Power off
Press and hold the Power key for 2 seconds to turn your phone off. Your phone will display power off animation.

**Tip**
Your phone has a built-in antenna at the bottom of the phone body. Contact with the antenna affects call quality and may cause the phone to operate at a higher power level than otherwise needed. Not touching the antenna area during a phone call optimizes the antenna performance and the talktime of your phone.

Basic functions

Playing Music

From the main menu, select MP3 Player, press the Dial key or Scroll key.

Listening to the Radio

From the main menu, select FM radio, press the Dial key or Scroll key.

Note
The headset lead works as an aerial for the FM radio, so you must have the headset connected.

Making a call

Input the phone number and press the Dial key (Dial).
Or select a number in the Phone book contact list and press the Dial key (Call).
Answering or rejecting a call
Press the **Dial key** *(Ans)* to answer an incoming call.
Press the **Power key** *(Reject)* to end or reject a call.

Turning off the Speaker
Press and hold the **# key**. This silences the phone's loudspeaker, so it will not ring, or give message alerts and the MP3 can only be played through the headset.

Adjusting Volume During a call
Push the **Scroll key** up or down to increase or decrease earpiece volume.

Redialing a number
In standby mode, press the **Dial key** to enter the **All calls** list.
Select the number you want by the **Scroll key**, then press the **Dial key**.

**Note**
You can press the *** key** or **# key** to switch to the **Dialled**, **Received** or **Missed** lists.
Main menu

In standby mode (with keypad unlocked):

Push the **Scroll key** down to enter main menu and scroll through the menu icons, press the **Scroll key** or **Dial key** to select and open the menu when the relevant icon is displayed on the screen.

**Setting up Time & Date**

Open the main menu, select **Settings> Date & Time**.

**Setting time**
1. Select **Date & Time> Time**.
2. Enter the time you need, then press the **Dial key** (OK) or **Scroll key** to save the time setting. (e.g. If the time would be 2:45 pm, please enter 1-4-4-5)

**Setting date**
1. Select **Date & Time> Date**.
2. Enter the date you need, then press the **Dial key** (OK) or **Scroll key** to save the date setting. (e.g. If the date would be Mar 15th 2005, please enter 1-5-0-3-2-0-0-5)

**Setting date format**
1. Select **Date & Time> Date format**.
2. Select the format you want, and then press the **Dial key** (Option) or **Scroll key** to save the date format setting.
Storing a phonebook entry

Storing a phonebook entry from the menu
1. Open the main menu, select Mobile>Phone book>Add new.
2. Enter the contact name and press the Dial key to save.
3. Select a group for the current entry. Press the Dial key (Select) or Scroll key.
4. Enter the phone number you want. Then press the Dial key (Save) or Scroll key.
5. Select a number type. Press the Dial key (Save) or Scroll key.
6. Three phone numbers can be added into each entry. To add more numbers, select Add number and press the Scroll key and redo step 4 and step 5 above.

Storing a phonebook entry in standby mode
1. In standby mode, input a phone number, then press the Scroll key to enter Option menu>Save.
2. If adding a new phone number to an existing entry, select To existing to enter phone book list.
3. Select the entry you want, then press the Dial key (Select) to save the new number.
4. If creating a new entry, select New entry.
Searching for a phonebook entry

In standby mode, press the Scroll key; or open the main menu, then select Mobile>Phonebook>Names to enter contact lists.

In contact lists, press the *, # key to page up or down.

1. To search by first letter: press the number key which the first letter of a contact’s name begins with, then use the Scroll key to select a name you want.

2. To search by name: press the Scroll key to open option menu, select Search, then input the contact’s name and press the Dial key (OK).

3. To search by group: press the Scroll key to open option menu, select View by group, then select the group and press the Dial key (OK) or Scroll key, and then all the group’s contact lists will appear.
Send data using Bluetooth technology

Tips:
Before pairing, please create your own password and agree with the owner of the other device to use the same password. This password is used only once and you do not have to memorize it.

Pairing
1. Place the two devices within 6 meter.
2. From the main menu, select Tools>Bluetooth>Switch and select On.

Warning
Please turn the switch on before using the Bluetooth connection. The default switch status of your phone is Off.

3. Select Tools>Bluetooth>My device. And select Search device, press the Dial key or Scroll key to begin searching for devices within range.
Warning
It will cost 15 seconds to find a new device. Your phone screen will turn off in several seconds, and you can press any key to light up the screen.

4. Press the **Power key** to stop searching and open the searched devices list. Select a device you want to connect with, press the **Dial key** or **Scroll key** to begin pairing. If paired successfully, the screen displays “Enter password”, or else it displays “Pair failed, retry?”, select OK to retry pairing.

5. Enter the password, press the **Dial key** or **Scroll key**. Enter the same password. If paired successfully, the screen displays “Paired ok”, or else it displays “Pair failed”. You are required to re-enter the password to pair with the device again.

6. If paired successfully, you are transferred to **My device list** automatically. Press the **Power key** (Exit) to return to the standby mode.

Visibility
2. Select On to allow other Bluetooth devices to find you. Select Off to hide your phone so that you cannot be found by other Bluetooth devices.
Rename

**Rename devices**
1. Select the device you want in My device list, press Dial key (Option) or Scroll key.
2. Select Rename to edit the default name of the selected device.

**Rename your phone**
1. Select Tools>Bluetooth>Options> Rename.
2. Push the Scroll key up or down to move the cursor, and press the Soft key to delete the characters before the cursor. Enter the name you want, and press the Dial key (OK).

Service List

**Service list of other devices**
1. Select the device you want in My device list, press Dial key (Option) or Scroll key.
2. Select Service list to check all the services the selected device can provide.

**Service list of your phone**
Select Tools>Bluetooth>Bluetooth service to check all the services your phone provides.
Delete devices
1. Select the device you want in My device list, press **Dial key (Option)** or **Scroll key**.
2. Select **Delete** to delete the selected device.

Download data with Bluetooth technology
1. Select the device you want in My device list, press **Dial key (Option)** or **Scroll key**.
2. Select **Browse files/Connect** to view the shared files or file folders on the other device.
3. Select the file you want, press the **Dial key (Get)** to download the file to your phone.

**Note:**
All the files received by Bluetooth technology are saved in the default file folder “Blue Tooth”.

29
Send data with Bluetooth technology
1. Select File manager>File viewer from the main menu.
2. Select the file you want to send, press the Dial key (Option) or the Scroll key to open the option menu.
3. Select Send by Bluetooth.

Security
Select File manager>File viewer to open the option menu.
- **Off**: To view the shared files in the paired device directly after pairing.
- **Service level**: When using FTP or OPP services, connection requests such as viewing, getting or deleting the shared files from the paired device must be accepted separately after pairing.
- **Link level**: When using FTP or OPP link, connection requests such as viewing, getting or deleting the shared files from the paired device must be accepted separately after pairing.

Select default save location
1. Select Tools>Bluetooth>Options>Root drive.
2. Select Phone or Memory card as the default save location for the data transmitted by Bluetooth.
Select prefer player
1. Select Tools>Bluetooth>Options>Prefer player.
2. Select the default player from the options:
   - **Phone**: Listen to music using the internal loudspeaker or the headset.
   - **BT sink**: Listen to music using Bluetooth headset.

Adjust microphone volume
1. Select Tools>Bluetooth>Options>Mic volume.
2. Push the **Scroll key** up or down to increase or decrease the volume.
Send phone book entries

Send a phone book entry
1. In the standby mode, press the Scroll key, or select Mobile>Phone book>Names from the main menu.
2. Select the entry you want to send, press the Scroll key to open the option menu. And select Send by Bluetooth.
3. Select the receiving device from My device list, and press the Dial key (Select) or Scroll key to send.

Send my business card
1. From the main menu, select Mobile>Phone book>My business card.
2. Select Edit to edit your business card including name, phone number and E-mail address. Then press the Dial key (Save).
3. Select Send by Bluetooth to open My device list. Select the receiving device and press the Dial key (Send) or Scroll key to send your business card.
Exchange business card
1. From the main menu, select Mobile>Phone book>My business card.
2. Select Exchange business card to open My device list. Select the receiving device, press the **Dial key** (Select) or **Scroll key** to send your business card and receive the business card from the other side.

Connecting a headset
The FM radio uses the headset wires as an aerial, so the radio will not work unless the headset is connected.

The symbol 🎧 is displayed when a headset is connected.

Connect the headset plug into the top of the phone adjacent to the USB connector. Please ensure that the headset plug is pushed firmly home.

For your safety

**SWITCH ON SAFELY** Do not use in prohibited areas or when it may cause any interference or danger.

**SWITCH OFF IN HOSPITALS** Follow any restrictions. Switch the phone off near medical equipments.

**SWITCH OFF WHEN REFueling** Do not use the phone at a refueling point. Do not use near fuel or chemicals.

**SWITCH OFF IN AIRCRAFT** Follow any restrictions. Switch off the phone during the flight as the wireless devices can cause interference in aircraft.

**ROAD SAFETY** Obey all local laws. Please use the hands free kit whilst driving.

**ACCESSORIES AND BATTERIES** Use only approved accessories and batteries. Do not try to connect incompatible products.

**BACKUP IMPORTANT INFORMATION** Remember to make backup copies or keep a written record of all important information.

**CONNECTING TO OTHER DEVICES** When connecting to any other devices, read its user manual for detailed safety instructions. Do not try to connect incompatible products.
MAINTENANCE Only authorized and qualified personnel may repair this product.

WATER RESISTANCE Your phone is not water-resistant. Keep it dry.

INTERFERENCE All wireless devices may be susceptible to interference, which could affect its performance.

Damage to the security seal will cause the warranty invalid.

Warning
Improper use will invalidate the warranty.
Recycling and Disposal

Device

At the end of its life, the appliance must not be disposed of in household rubbish. Enquire about the options for environmentally-friendly disposal.

Batteries

Do not dispose of used batteries in the household rubbish! They must be deposited at a collection point for used batteries.

Packaging

To avoid damage during transport, this device is stored in a packaging. Packaging is produced mostly from materials which can be disposed of in an environmentally friendly manner and be professionally recycled.

Should you have any questions concerning the disposal please contact your dealer or our service.
